DEATH OF MRS. CHATTIE KILGORE

Mrs. Chattie Kilgore died at her home near Mayslick yesterday morning at 3 o'clock after a long illness, having been an invalid for twenty years. She is survived by four daughters and three sons—Miss Chattie Kilgore, Mrs. Riley Walker, Misses Mamie and Mattie Duncan, and Messrs. Joseph, Charles and Rube Duncan.

WEDDED AT BIRMINGHAM, ALA.

Friends here of Sergeant Henry Wadsworth Cole, of this city, now stationed at Camp Shelby, Miss., will no doubt be surprised to hear of his marriage to Miss Octavia Sanders Brown, on last Saturday evening at the home of the bride's mother, Mrs. Alfred Daniel Brown, in Birmingham, Ala.

DEATH OF MRS. PETER WALSH

Mrs. Peter Walsh died at her home on the Lexington pike Tuesday after a long illness. She is survived by her husband. Funeral was held from her late home this morning at 10 o'clock. Interment in the Washington Catholic cemetery.

PULLED OUT WHEN THE PULLING WAS GOOD

Some time last fall a well known resident of a community in the Southwestern part of this county was stricken with the "tobacco bug", and began buying the weed right and left in medium size quantities from the growers. He bought one crop from a colored man, and in order to be sure of his "bargain" he paid \$100 down to the grower. After thinking the matter over and reading the markets in the papers (he goes to the colored man and gave him \$55 to cancel the contract. It was not the zero weather that caused his feet to become so frigid. Last year the same gentleman scooped up several thousand dollars on his purchases, but it was a different story this year. He saw there would be "nothing doing" in the several thousand to the good this year.

DEMURRAGE RATES INCREASED

Instructions have been received by the officials of the L. & N. Railroad in this city, calling attention to the increased demurrage rates, effective January 21. Shippers are urged to load and unload cars without regard to the 48 hours free time. After expiration of free time allowed, the following charges will be made per car each day or fraction of a day until car is released: First day, \$3; second day, \$4; third day, \$5; fourth day, \$6; fifth day, \$7; sixth day, \$8; seventh day, \$9; eighth and each succeeding day \$10. Besides this increase in demurrage rates, the average and bunching rules have been abolished and no such allowances will be made hereafter.

CURTIS-BURNS

Mr. Harry V. Burns, aged 39, and Miss Lottie Curtis, aged 30, both of Mt. Olivet, were married here yesterday by Rev. A. F. Stahl, pastor of the Christian Church.

The Farmers House did not have a sale yesterday will have first sale this morning.

No sales at Growers and Peoples warehouses. Block sale at the Home.

FLEMINGSBURG SCHOOLS CLOSE DOWN

The Flemingsburg Times-Democrat says: Last week the Board of Trustees of our High School met and decided to adjourn school for four weeks, the time to be made up at the latter end of the term. The reasons alleged for this action was the scarcity of coal and the bitter cold weather which has prevailed and which shows no signs of abatement. We feel that it was a mistake to make it such a protracted play-time, as we hope this bitter weather will soon give way enable school to resume as usual.

BIG SALE CONTINUED

Mellvain, Knox & Diener's big \$50,000 expansion sale, which was to have closed last week, is being continued this week on account of the fact that the weather has been so bad that many were unable to attend and secure their part of the big bargain feast. Tremendous reductions are being made on the large stock of furniture at this store and all who expect to take advantage of the many big bargains offered will make no mistake by coming in for the last two days of the sale on Friday and Saturday.

CIVIL SERVICE EXAMINATION

The United States Civil Service Commission has announced that an examination will be held at the Maysville postoffice on February 23, 1918, for the position of fourth-class postmaster at Washington, Ky. Persons who wish to take the examination should, at once, apply for application blanks and instructions to applicants either at the place of the vacancy or to the Civil Service Commission, Washington, D. C.

PLACED ON PENSION LIST

Mr. James Stoker, who has been employed by the Standard Oil Company at the Maysville plant for the past twenty years, has been placed on the pension list of the company through the efforts of M. F. Holmes, local agent.

This is in recognition of Mr. Stoker's faithful and efficient services rendered while employed by this company.

STREAMS FULL OF ICE

All the streams, both small and large, are full of heavy ice. The last little thaw and rain did not carry off the ice but merely piled it up in gorges and on the banks, and when a real break-up comes there will be something doing along the water-course.

DEATH OF W. H. REINART

Mr. W. H. Reinart, prominent merchant of Ripley, Ohio, died Sunday from cancer of the stomach. The Knights of Pythias order had charge of the funeral service, which was held Wednesday afternoon. Interment in Ripley cemetery.

A call meeting of the Maysville Grocers' Association will be held at the Chamber of Commerce tonight at 8 o'clock.

STATE-WIDE DRY BILL

Passed By Kentucky House of Representatives Yesterday — Is More Stringent Than Senate Measure.

The administration state-wide prohibition amendment resolution, introduced by Representative J. Hogan Ballard, was passed by the House of Representatives of the Kentucky General Assembly at Frankfort late yesterday by a vote of 80 to 11.

The vote in the House followed the passage in the Senate Tuesday of the Frost state-wide resolution 28 to 6. The two measures differ in that the House resolution is somewhat more stringent in its provisions, and it is thought probable that it may displace the Senate measure.

Efforts to amend the Ballard resolution so as to extend the time it will become effective beyond June 30, 1920, failed, as did similar efforts to amend the Frost resolution in the Senate Tuesday.

TROOPS TO GO FASTER TO FRANCE

Washington, January 23—America is sending troops to Europe far more rapidly than originally planned.

It is now estimated barring disaster, that fully twice as many will be training under Pershing by June than early estimates provided.

This fact has been assured senators by President Wilson as an example of the War Department's tremendous work. Under the circumstances the president holds, some mistakes were inevitable, but "the same mistake has not been made twice."

The War Department is considering means of increasing the transport of men.

WOMEN POULTRY RAISERS ARE URGED TO ATTEND MEETING

Please let me impress upon the minds of the women of this city and county who are interested in poultry raising are most welcome at the meeting to be held tomorrow, Friday afternoon at 2:30 o'clock at the Chamber of Commerce. This meeting will be addressed by Mr. Chapin, of the Experimental Station at Lexington, on how to get and raise pure bred poultry. Come, bring your husbands and your neighbor. It is of interest to you and your county. So let us all try to take advantage of our opportunities.

PROBE BEGAN

Of C. & O. Wreck at Russell—Engineer Loring Dies in Huntington Hospital, Making Third Fatality.

Huntington, W. Va., January 23—A probe of the wreck on the Chesapeake & Ohio railway at Russell, Ky., early yesterday morning, was begun later in the day by officials of the Kentucky state railway commission.

The third fatality as a result of the wreck was the death of Engineer Frank Loring, of Covington, Ky., Fireman W. C. Paris, of Covington, Ky., and Yard Brakeman M. J. Ealy, of Russell, were killed when the fast passenger train, No. 4, crashed into a yard engine as it was on a main-line cross-over.

Others of the injured, E. Basenback, yard conductor, D. T. Lane, yard engineer, and R. B. Hobbs, yard fireman, were said yesterday to be somewhat improved.

While the cause of the collision is yet to be officially determined, it is supposed that the change in the time of Number 4, effective last Sunday, may have had something to do with the wreck. The time of No. 4 was advanced exactly one hour. For years the train ordinarily arrived in Huntington at 2:20 a. m. The new arriving time of the train here is 1:30 a. m.

It is thought possible that the switching crew had overlooked the earlier arrival time of the train and found themselves on the main line as the fast passenger train came through the yards.

Engineer Loring was 52 years old and leaves a wife and daughter. He died at the Chesapeake & Ohio hospital at 12:45 o'clock yesterday afternoon.

The main line was cleared several hours after the collision and traffic resumed.

MAKING GOOD ON THE FARM

Farmer Glen Mearns, who when he was a citizen of Maysville was one of the most popular and affable young men one cared to meet, is making good out in the "sticks", which is good news to his legion of friends here. He was in the city today with the remainder of his tobacco, the first part of which netted him a nice sum, and the sales today showed he lost nothing on his tail-end crop. He says that the rural life is the only one and that he has had better health and all the good things of life since seeking the hedges.

EDITOR AND MANAGER.....CLARENCE MATHEWS

Local and Long Distance Telephone No. 40. Office—Public Ledger Building.

Entered at the Maysville, Kentucky, Postoffice as Second-class Mail Matter.

The San Francisco Chronicle prints an entertaining and inspiring letter from a correspondent who signs himself G. Matsuko. The time is loyalty, and the brand of Japanese-Americanism revealed by the writer leaves nothing to desire.

"I wish you will preach to throw all the near-Americans and pro-nothings in the bay," he says. "Do no longer handle the half-breed with kid words."

"Ever since I arrive in this land of the free I am learning more to regret that I am not born here, so I can sign name Smith or like-wise. I wish to be best American money can buy. It makes me blus-hful to think I do no more than refrain from best food. I have admira-tion for them which wears button saying, 'I owe for Liberty Bond,' and I make loud cheer for him. This is the lifetime to raise hell for Germans, and I beg you assisting."

Possibly the author is not a real Jap. He writes suprisingly like a certain literary gentleman camouflaged as Hashimura Togo. But you never can tell. Anyhow, the sentiments are admirable. And if this is genuine Japanese-Americanism, give us more Jap hyphenates.

THE ROAD QUESTION

Good Roads Division, Chamber of Commerce.

The political "graveyard" is filled with Fiscal Courts that were wrecked by the road problem.

Likewise the road question has been the Waterloo of many a man who otherwise made a good County Judge.

Millions of dollars of road money have been wasted not so much because of criminal intent, but because County Judges, and Magistrates failed to realize that road-building is a science and Fiscal Courts and Magistrates are not scientists.

So uniformly have Fiscal Courts spent road money unwisely that the magistrate system has filled into had order and Fiscal Courts are looked upon with suspicion.

If the Fiscal Court spends \$5,000 or \$500,000 the opinion is the same that

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Quinsy that cannot be cured by the use of HALL'S CATARRH MEDICINE. know? Will they abolish the old pie system of distributing the road money to the several Magistrates? Or, will they build roads that begin somewhere and end somewhere?

Correspondents will please give facts as briefly as possible. When anything of great importance occurs use the Telegraph or the Telephone at our expense.

Peebles, Ohio

Bonds for the construction of the West Union, Sinking Springs Inter County Highway, in Meigs Township, Adams county, have been advertised for sale at \$356, each bearing interest at 5 per cent. Sale at West Union February 4, 1918, by the Board of County Commissioners.

C. E. Condon, Superintendent of the Adams County Telephone Company, has with his force been working overtime the past week, trying to get the telephone system back into shape. Many wires were broken down by the great weight of the sleet and by the wind. We were cut off from many neighboring towns and villages for several days.

Dr. Shabo suffered the misfortune of getting his nose and cheeks frozen bitten while attending to his professional duties the past week.

John Butcher of Pike county, came up in his sled Friday with a load of locust posts with which to fence his property here in the spring.

The girls of the Queen Esther Circle met at the home of their Director, Mrs. Hook on Friday night and elected new officers for the coming year. Mary Tener, President; Anna Mary Fleming, Vice President; Marie Thoroman, Corresponding Secretary; Edith Fleming, Recording Secretary; and Ruth Watts, Treasurer. Refreshments were served and several new members enrolled.

J. F. Roberts of Lawsville was here Saturday. He was describing his troubles in securing medical aid recently when there was a alarming sickness in his family. He telephoned to his town but one of our doctors was himself sick in bed and the other was gone to Portsmouth. Seaman, though a wide awake little town in other respects, has no resident physician or surgeon. Finally appealing to West Union he succeeded in persuading Dr. Crawford to face the cold for the twelve mile drift. Four hours later with the snow drift he was welcomed into the stricken home, while his frost encrusted horse was taken care of in a warm stable. One would think that Seaman or Lawsville would have attractions for some unattached young M. D.

Our town has received but two car loads of coal in fifteen days and as a large part of the surrounding country depends on Peebles for their coal supplies the amount has been far

the money has been wasted. And, in the face of road-building in Kentucky can you blame the public?

The logical result of road incompetence has been that the Fiscal Court system has gotten in bad repute and in being abolished as rapidly as the voters can get a chance to vote on it.

In Henderson county the old system is making its last stand. It is on trial with an alert and informal public sitting in judgment.

The fate of the Magistrates is in their own hands.

Will they shut their eyes to the history of their predecessors?

Will they treat the road fund as a huge pile to be cut equally among the Magisterial Districts and spent willy nilly, hap-hazard—any way just so an equal amount is spent in each district? Will the road money be spent wastefully by men who know nothing of the science of road-building?

Or will the Magistrates and their leaders, the County Judge (take warning from the fate of others and buy brains? Brains come high these days but they are cheaper than new roads or dead political chances.

If any more short-lived roads are built or any more road money wasted in Henderson county it is "Good Night" to the old Magistrat system.

Can the present Fiscal Court afford to shoulder the responsibility of scientific road-building? Or, will they recognize that road-building is a science and invoke the aid of men who

from sufficient. The hum of the saw and ring of the axe are heard almost continually but wood is also very hard to obtain especially during this zero weather and deep snow. This is believed to be the severest weather in this part of the country in fifty years.

Snow has lain on the ground and zero weather been almost continuous since December 8, and the mercury has dropped to 20 degrees below on at least three different occasions.

Adams county means to sustain her reputation of being in the front rank in all up-to-date, practical and patriotic work and she has the honor of being among the first if not in the very bad, in installing a "municipal woodpile" for the relief of her shivering citizens. West Union located far from a railroad and shut in by snow drifts, has rallied to the emergency and in a systematic manner solved the problem. Ira Spencer, with his engine and saw, works every day sawing up the poles hauled from the nearby woods by voluntary helpers.

Rev. A. P. Smith as general manager, regulates the amount allowed each family and more than 100 families have thus been saved incredible suffering.

Sunday, January 13th, was the first churchless Sunday, remembered here for years. Owing to the scarcity of coal, not a church was heated nor a church bell rung on that day but on Sunday, January 20th, the Presbyterian congregation managed in some way to secure enough coal to warm their building for services. Our school has fortunately and owing to the foresight of our alert Board of Education, been able to continue right on with no interruptions as yet for each of heat and the attendance keep up remarkably well.

Though the smallpox has not as yet invaded our end of the county, many have taken the precaution of being vaccinated.

If Judge Rice's excellent suggestion about raising the license for dogs to \$5 each, were adopted in our county, quite a tidy little sum could be secured for more worthy causes, as already over 2,000 dogs have been listed and this is not believed to be more than two-thirds the real number.

THE VALUE OF GOOD ROADS

(By W. N. Boseler, Division Engineer Department of Public Roads of Kentucky.)

Since the advent of the automobile and the motor truck, road construction and maintenance has grown to be, not only a local or a national, but an international matter of grave importance.

Probably no branch of engineering has advanced more or produced such an opportunity for personal endeavor, in the past decades, as highway engineering.

Recent events in war-stricken Europe show the immense military value of good roads. France was en-

GOOD CAUSE FOR ALARM

These Figures Will Make Maysville People Take Notice.

Deaths from kidney disease have increased 72% in twenty years. People overdo nowadays in so many ways that the constant filtering of poisoned blood weakens the kidneys. Beware of fatal Bright's disease. When backache or urinary ills suggest weak kidneys, use Doan's Kidney Pills, and carefully, take things easy and avoid heavy eating. Doan's Kidney Pills command confidence, for no other kidney remedy is so widely used or so generally successful. Home endorsement is the best proof of merit. Read this Maysville resident's story:

Miss Dora Edgington, Wood St., says: "I have used Doan's Kidney Pills and from the results received, I have every reason to recommend them. At times my kidneys have become weak and have been irregular in action. My back has ached, too, and has been very weak and lame across my kidneys. When I have used Doan's Kidney Pills for this trouble, they have never failed to relieve the complaint in a short time. I gladly advise anyone to get a box of Doan's Kidney Pills at Chanslor's Drug Store, if troubled in that way."

Miss Edgington is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Miss Edgington had—the remedy backed by home testimony. 60c all stores. abled, by her wonderful system of national highways, to transport troops, who stopped the on-rushing Germans in 1914. Again, the Italian Army, in their recent Alpine Campaign against Austria-Hungary was greatly retarded by the lack of good roads.

The value of good roads properly maintained in this country is practically inestimable, whether considered from the Farmer's or merchant's point of view, to say nothing of the tourists. Good roads, more than anything else, open new territory, enhance real estate values, produce a means for better social intercourse, produce better schools and churches and attendance at same. To say nothing of giving the farmer an opportunity to market crops cheaper, easier and quicker, and the city man to profit thereby.

TONEY LOSES IN ARMY APPEAL

Nashville, Tenn., January 23—Fred Toney, mainstay in the box for the Cincinnati Reds, has been placed in Class A of the selective army by the Middle Tennessee District Exemption Board. The decision upholds the ruling of his local board, from which an appeal was made.

Federal charges against Toney of having made false affidavits as to dependencies will be heard at the March session of the grand jury. The ruling of the District Board is final, except where an appeal is made to the president. Toney will be among the first to go unless held to await the decision of the grand jury.

Mr. and Mrs. James S. Dawson have returned home from Cincinnati, where they were called by the death of their brother-in-law, Mr. William McMullen, who will be remembered as a resident of this city several years ago, having married Miss Nellie Stiles, of this city.

THE GENEVA OPTICAL COMPANY

(Cincinnati, O., January 22, 1918.)

Mr. J. A. Simpson, Maysville, Ky.
Dear Sir: We beg to acknowledge receipt of your favor of the nineteenth, enclosing ad you you are using in the five days' "shut-down," which we think is a very good one. However, according to the ruling of a special committee, as shown in the Chicago Herald, January 19th, on page 3, rule 23, this order was not intended for you. The ruling referred to reads as follows:

Manufacturers of Optical goods may operate that portion of their factories in which special orders for eye-glasses are made. Nothing in this order will permit of such manufacturers to operate their factories as a whole.

We might add that our Chicago office has secured a permit to remain open Monday for the reason that doing optical prescriptions is, in their judgment just as essential as filling any physician's prescription in a drug store.

With kindest regards and best wishes, we are
Yours very truly,

VINOL CREATES STRENGTH

Positive—Convincing Proof

It is all very well to make claims, but can they be proven? We publish the formula of Vinol to prove the statements we make about it.

Is Cod Liver and Beef Peptones, Iron and Manganese Supplement, Iron and Manganese Citrate, Lime and Soda Glycophosphates, Casein.

Any doctor will tell you that the ingredients of Vinol as published above, combine the very elements needed to make strength.

All weak, run-down, overworked nervous men and women may prove this at our expense.

There is nothing like Vinol to restore strength and vitality to feeble old people, delicate children and all persons who need more strength.

Try it. If you are not entirely satisfied, we will return your money without question; that proves our fairness and your protection.
